The Classic Dart Paper Airplane

#1
Step 1: Fold a rectangular piece of paper in half lengthwise.

#2
Step 2: Fold the short edge of one side down to the first fold. This will produce a 45 degree angle. Do this for the other side, too.

#3
Step 3: Fold down the new fold you have created to the original fold you made in Step 1. Again, repeat for the other side.

#4
Step 4: Repeat Step 3 again for both sides.

#5
Step 5: Hold the center and open the wings out.

(folds start at bottom of flier!)
